

DB815

Foot Dispenser

A basic air-powered system, floor mounted and foot actuated. Includes a three-way air valve and built in air regulator, ideal for non-critical dispensing operations. As long as the foot pedal is depressed, fluid will be dispensed. The unit is suitable for all types of fluids. The model with suck-back option ensures that low viscosity liquids do not drip.

Features

- Economical & simple to use
- Wide range of applications
- Barrel suck-back ensures no dripping
- No electric needed
