New F5300N.2 Robot launch

Reason for Release: New Product Release

Effective Date: immediate

Fisnar, leading manufacturer of precision fluid dispensing & automation equipment, is pleased to announce the launch of its new F5300N.2 robot.

Item Number	Description
F5300N.2	Unitop Robot 300x300x150

Based on the same mechanical and electrical design as the F5200N.2, the new F5300N.2 robot features an increased working area of 300mm in both the X-Axis and Y-Axis.

This increased work area will allow application components to be processed, which have a larger dispense area that the Fisnar F5200N.2 robot previously wasn't able to achieve.

Best Regards,

R Campbell
